+234 (80) 7425-1316 | SOFTWARE ENGINEER

OBJECTIVE

I am a seasoned software engineer with over four years of experience. Proficient in C, C#, Python, JavaScript, Java etc. I excel in designing and maintaining software solutions that tackle complex challenges. My skills span the entire software stack, from front-end to back-end development. I am passionate about continuous learning and collaborating effectively within diverse teams to deliver client-centric solutions.

SKILLS

Software Development

Problem-Solving

API Development

Cloud Computing

UI/UX Design

Collaboration

Continuous Learning

Security

Database Management

EXPERIENCE

SENIOR SOFTWARE DEVELOPER • MR BIGGS • FEB 2021 • DEC 2022

I conceived and oversaw the development of a Fast-Food Management System for Mr. Biggs Nigeria. This software solution was designed to automate and streamline the day-to-day operations of fast-food establishments, addressing the unique challenges they encounter.

SENIOR WEB DEVELOPER • GBUZZ MEDIA • AUG 2020 • JAN 2021

As a Senior Web Developer at Gbuzz Media from August 2020 to January 2021, I undertook a contract-based role where I spearheaded the development of a web application. This platform granted users access to music uploads, seamless streaming, and convenient downloads.

EDUCATION

ND SOFTWARE ENGINEERING • AUG 2022 • COMPLETE COMPUTERS AND TECHNOLOGY INSTITUTE

GPA: 3.66

CERTIFICATE C PROGRAMMING • OCT 2022 • HARVARDX (CS50)

LEADERSHIP EXPERIENCE

In my software engineering journey, I've assumed leadership roles, overseeing teams and projects from inception to delivery. I've fostered collaboration, made critical decisions, and mentored team members. I've also served as a client liaison, ensuring clear communication. Through innovation and process improvements, I've consistently strived for excellence, enhancing team efficiency and project success.
